SUBJECT INDEX

AES
Thermal studies on some metal complexes of hexamethyleniminecarbodithioate 231
Alcohol
Solubility parameters of some high molecular weight alcohols and esters used in pharmaceutical preparations 219
Alkane
Excess enthalpies and excess volumes of methanol + *n*-decane mixtures at 298.15 K 15
Ammine
The effect of KI on the thermal decomposition of cobalt(III)–ammine complexes 273
Amorphous
The physical modification of lactose and its thermoanalytical identification 187
Aromatic
Group additivity thermodynamic parameters (terms) for Br, Cl, F, CH_3 and OH interactions and CH_3 buttress effects in multi-substituted aromatics 153
Arylidene
Arylidene polymers. Part 21. Thermal decomposition parameters of new diarylidenecycloalkanone organophosphorus polymers 255
Atmosphere
Thermal transformations of $NH_4M^{II}PO_4 H_2O$ (where M^{II} is Mg, Mn, Co, Cu) 91

Barium
Thermal stability of barium-doped iron oxides with spinel structure 21
Benzoate
Studies on densities and viscosities of binary mixtures of alkyl benzoates in *n*-heptane 127
Binary system
Studies on densities and viscosities of binary mixtures of alkyl benzoates in *n*-heptane 127
Buttress effect
Group additivity thermodynamic parameters (terms) for Br, Cl, F, CH_3 and OH interactions and CH_3 buttress effects in multi-substituted aromatics 153

Caesium nitrate
The heat capacities of $LiNO_3$ and $CsNO_3$ from 350 to 700 K 195
Calorimeter
Enthalpies of solution of some aromatic sulphonic acids and of some aminosulphonic acids 69
Chalcogenide
A thermodynamic study of gas transport in the growth of antimony telluride thin films 9
Chelate
The thermodynamics of complexation of transition and lanthanide ions by 3-(α-carboxymethylaminobenzylidenehydrazino) - 5, 6-diphenyl-1,2,4 triazine (HipHt) 291
Citric acid
Enthalpies of solution of citric acid in water at 298.15 K. The effect of association processes on thermochemical properties of electrolyte solutions 33
Cluster
A computational treatment of the gas-phase thermodynamics of the water dimer in flexible potentials 1
Cobalt compound
Kinetic studies on the decomposition of potassium bis(oxalato)cobaltate (II) 61
The effect of KI on the thermal decomposition of cobalt(III)–ammine complexes 273
Complexation
The effect of KI on the thermal decomposition of cobalt(III)–ammine complexes 273
Cross linking
Effet du degré de dispersion du soufre sur la cinétique de vulcanisation 115
Crystallinity
The physical modification of lactose and its thermoanalytical identification 187

Database
Use of databases in thermal analysis. Part 5 85
Decane
Excess enthalpies and excess volumes of methanol + *n*-decane mixtures at 298.15 K 15

Decomposition
Arylidene polymers. Part 21. Thermal decomposition parameters of new diarylidenecycloalkanone organophosphorus polymers 255
The effect of KI on the thermal decomposition of cobalt(III)–ammine complexes 273
Dehydration
Kinetic analysis of the dehydration and linkage isomerization of potassium hexanitronickelate(II) hydrate 53
Dimer
A computational treatment of the gas-phase thermodynamics of the water dimer in flexible potentials 1
Doping
Thermal stability of barium-doped iron oxides with spinel structure 21
DSC
Kinetic analysis of the dehydration and linkage isomerization of potassium hexanitronickelate(II) hydrate 53
Effet du degré de dispersion du soufre sur la cinétique de vulcanisation 115
The physical modification of lactose and its thermoanalytical identification 187
The heat capacities of $LiNO_3$ and $CsNO_3$ from 350 to 700 K 195
Modification of the general method of determination of the heat capacity of liquids in high pressure crucibles by differential scanning calorimetry 203
Thermal behaviour and heat capacity of some high molecular weight alcohols and esters used in pharmaceutical preparations 209
Free-radical polymerization of lauryl methacrylate by differential scanning calorimetry. Part 1. Enthalpy of polymerization 265
Solubilities of organoboron compounds in organic solvents. Part 1. Solid–liquid equilibria of some pyrazaboles + heptane or +2-propanol 279
DTA
Kinetic analysis of the thermal decomposition of polyesters by simultaneous TG–DTA/FT-IR 45
Thermal transformations of $NH_4M^{II}PO_4 \cdot H_2O$ (where M^{II} is Mg, Mn, Co, Cu) 91
Thermal studies on some metal complexes of hexamethyleniminecarbodithioate 231
IR and UV spectral and differential thermal analyses of symmetry shifts in geminally bis-, tetrakis- and fully substituted phenyl derivatives of cyclotriphosphazene 241
DTG
Thermal transformations of $NH_4M^{II}PO_4 \cdot H_2O$ (where M^{II} is Mg, Mn, Co, Cu) 91
Arylidene polymers. Part 21. Thermal decomposition parameters of new diarylidenecycloalkanone organophosphorus polymers 255
Dynamic
Free-radical polymerization of lauryl methacrylate by differential scanning calorimetry. Part 1. Enthalpy of polymerization 265
EGA
The effect of KI on the thermal decomposition of cobalt(III)–ammine complexes 273
Ester
Solubility parameters of some high molecular weight alcohols and esters used in pharmaceutical preparations 219
Excess molar enthalpy
Excess enthalpies and excess volumes of methanol + *n*-decane mixtures at 298.15 K 15
Excess molar volume
Excess enthalpies and excess volumes of methanol + *n*-decane mixtures at 298.15 K 15
Free radical
Free-radical polymerization of lauryl methacrylate by differential scanning calorimetry. Part 1. Enthalpy of polymerization 265
FTIR
Kinetic analysis of the thermal decomposition of polyesters by simultaneous TG–DTA/FT-IR 45
Gamma irradiation
Thermal volatilisation analysis of γ-irradiated tetraphenylboron sodium 79
Gibbs energy
Studies on densities and viscosities of binary mixtures of alkyl benzoates in *n*-heptane 127
Group additivity
Group additivity thermodynamic parameters (terms) for Br, Cl, F, CH_3 and OH interactions and CH_3 buttress effects in multi-substituted aromatics 153
Heat capacity
The heat capacities of $LiNO_3$ and $CsNO_3$ from 350 to 700 K 195
Modification of the general method of determination of the heat capacity of liquids

in high pressure crucibles by differential scanning calorimetry 203
Thermal behaviour and heat capacity of some high molecular weight alcohols and esters used in pharmaceutical preparations 209
Heat of fusion
The heat capacities of $LiNO_3$ and $CsNO_3$ from 350 to 700 K 195
Heat of polymerization
Free-radical polymerization of lauryl methacrylate by differential scanning calorimetry. Part 1. Enthalpy of polymerization 265
Heat of solution
Enthalpies of solution of citric acid in water at 298.15 K. The effect of association processes on thermochemical properties of electrolyte solutions 33
Enthalpies of solution of some aromatic sulphonic acids and of some aminosulphonic acids 69
Heat of vaporization
Solubility parameters of some high molecular weight alcohols and esters used in pharmaceutical preparations 219
Thermal studies on some metal complexes of hexamethyleniminecarbodithioate 231
Heptane
Studies on densities and viscosities of binary mixtures of alkyl benzoates in *n*-heptane 127

Ice
A computational treatment of the gas-phase thermodynamics of the water dimer in flexible potentials 1
Iron oxide
Thermal stability of barium-doped iron oxides with spinel structure 21
IRS
Thermal studies on some metal complexes of hexamethyleniminecarbodithioate 231
IR and UV spectral and differential thermal analyses of symmetry shifts in geminally bis-, tetrakis- and fully substituted phenyl derivatives of cyclotriphosphazene 241
Isothermal
Thermal transformations of $NH_4M^{II}PO_4 \cdot H_2O$ (where M^{II} is Mg, Mn, Co, Cu) 91
Effet du degré de dispersion du soufre sur la cinétique de vulcanisation 115
Free-radical polymerization of lauryl methacrylate by differential scanning calorimetry. Part 1. Enthalpy of polymerization 265

Kinetics
The shape of thermoanalytical curves as a function of the reaction kinetics 105
Effet du degré de dispersion du soufre sur la cinétique de vulcanisation 115
Arylidene polymers. Part 21. Thermal decomposition parameters of new diarylidenecycloalkanone organophosphorus polymers 255

Lactose
The physical modification of lactose and its thermoanalytical identification 187
Lanthanon compound
The thermodynamics of complexation of transition and lanthanide ions by 3-(α-carboxymethylaminobenzylidenehydrazino) - 5, 6-diphenyl-1,2,4 triazine (HipHt) 291
Lauryl methacrylate
Free-radical polymerization of lauryl methacrylate by differential scanning calorimetry. Part 1. Enthalpy of polymerization 265
Liquid
Modification of the general method of determination of the heat capacity of liquids in high pressure crucibles by differential scanning calorimetry 203
Lithium nitrate
The heat capacities of $LiNO_3$ and $CsNO_3$ from 350 to 700 K 195

Magnetite
Thermal stability of barium-doped iron oxides with spinel structure 21
Methanol
Excess enthalpies and excess volumes of methanol + *n*-decane mixtures at 298.15 K 15
Microcalorimeter
Excess enthalpies and excess volumes of methanol + *n*-decane mixtures at 298.15 K 15
Mixed oxide
The temperature relations of the thermodynamic quantities of Ca, Sr, Ba, and Pb zirconates 137
Thermodynamic data for some complex oxides used in electrolamp production 143
Model
Solubilities of organoboron compounds in organic solvents. Part 1. Solid–liquid equilibria of some pyrazaboles + heptane or +2-propanol 279
Molar heat capacity
Thermodynamic data for some complex oxides used in electrolamp production 143

Nickel compound
Kinetic analysis of the dehydration and linkage isomerization of potassium hexanitronickelate(II) hydrate 53
NMR
Thermal studies on some metal complexes of hexamethyleniminecarbodithioate 231
Non-isothermal
Kinetic studies on the decomposition of potassium bis(oxalato)cobaltate (II) 61
Thermal transformations of $NH_4M^{II}PO_4 \cdot H_2O$ (where M^{II} is Mg, Mn, Co, Cu) 91
Arylidene polymers. Part 21. Thermal decomposition parameters of new diarylidenecycloalkanone organophosphorus polymers 255
NRTL
Solubilities of organoboron compounds in organic solvents. Part 1. Solid–liquid equilibria of some pyrazaboles + heptane or +2-propanol 279

Organophosphorus
Arylidene polymers. Part 21. Thermal decomposition parameters of new diarylidenecycloalkanone organophosphorus polymers 255
Oxalate
Kinetic studies on the decomposition of potassium bis(oxalato)cobaltate (II) 61

PET
Kinetic analysis of the thermal decomposition of polyesters by simultaneous TG–DTA/FT-IR 45
Pharmaceutical
Thermal behaviour and heat capacity of some high molecular weight alcohols and esters used in pharmaceutical preparations 209
Solubility parameters of some high molecular weight alcohols and esters used in pharmaceutical preparations 219
Phase
Solubilities of organoboron compounds in organic solvents. Part 1. Solid–liquid equilibria of some pyrazaboles + heptane or +2-propanol 279
Polymer
Arylidene polymers. Part 21. Thermal decomposition parameters of new diarylidenecycloalkanone organophosphorus polymers 255
Potassium compound
Kinetic analysis of the dehydration and linkage isomerization of potassium hexanitronickelate(II) hydrate 53
Kinetic studies on the decomposition of potassium bis(oxalato)cobaltate (II) 61
Potassium iodide
The effect of KI on the thermal decomposition of cobalt(III)–ammine complexes 273

Rate constant
Use of databases in thermal analysis. Part 5 85
Rate law
Kinetic analysis of the dehydration and linkage isomerization of potassium hexanitronickelate(II) hydrate 53
Kinetic studies on the decomposition of potassium bis(oxalato)cobaltate (II) 61
Redox
The effect of KI on the thermal decomposition of cobalt(III)–ammine complexes 273
RRHO
A computational treatment of the gas-phase thermodynamics of the water dimer in flexible potentials 1

Semiconductor
A thermodynamic study of gas transport in the growth of antimony telluride thin films 9
SGP
Kinetic analysis of the thermal decomposition of polyesters by simultaneous TG–DTA/FT-IR 45
Sodium
Thermal volatilisation analysis of γ-irradiated tetraphenylboron sodium 79
Sodium compound
Thermal volatilisation analysis of γ-irradiated tetraphenylboron sodium 79
Solubility
Solubility parameters of some high molecular weight alcohols and esters used in pharmaceutical preparations 219
Specific heat
The temperature relations of the thermodynamic quantities of Ca, Sr, Ba, and Pb zirconates 137
Thermodynamic data for some complex oxides used in electrolamp production 143
IR and UV spectral and differential thermal analyses of symmetry shifts in geminally bis-, tetrakis- and fully substituted phenyl derivatives of cyclotriphosphazene 241
Spinel
Thermal stability of barium-doped iron oxides with spinel structure 21
Steam
A computational treatment of the gas-phase thermodynamics of the water dimer in flexible potentials 1

Sticking coefficient
A thermodynamic study of gas transport in the growth of antimony telluride thin films 9
Sulphur
Effet du degré de dispersion du soufre sur la cinétique de vulcanisation 115
Symmetry
IR and UV spectral and differential thermal analyses of symmetry shifts in geminally bis-, tetrakis- and fully substituted phenyl derivatives of cyclotriphosphazene 241

TA
Use of databases in thermal analysis. Part 5 85
The shape of thermoanalytical curves as a function of the reaction kinetics 105
IR and UV spectral and differential thermal analyses of symmetry shifts in geminally bis-, tetrakis- and fully substituted phenyl derivatives of cyclotriphosphazene 241
Tetraphenylboron
Thermal volatilisation analysis of γ-irradiated tetraphenylboron sodium 79

Kinetic analysis of the thermal decomposition of polyesters by simultaneous TG–DTA/FT-IR 45
Kinetic analysis of the dehydration and linkage isomerization of potassium hexanitronickelate(II) hydrate 53
Kinetic studies on the decomposition of potassium bis(oxalato)cobaltate (II) 61
Thermal transformations of $NH_4M^{II}PO_4 H_2O$ (where M^{II} is Mg, Mn, Co, Cu) 91
Thermal behaviour and heat capacity of some high molecular weight alcohols and esters used in pharmaceutical preparations 209
Solubility parameters of some high molecular weight alcohols and esters used in pharmaceutical preparations 219
Thermal studies on some metal complexes of hexamethyleniminecarbodithioate 231
Arylidene polymers. Part 21. Thermal decomposition parameters of new diarylidenecycloalkanone organophosphorus polymers 255
TGA
Thermal studies on some metal complexes of hexamethyleniminecarbodithioate 231
Arylidene polymers. Part 21. Thermal decomposition parameters of new diarylidenecycloalkanone organophosphorus polymers 255
TG–DTA
Kinetic analysis of the thermal decomposition of polyesters by simultaneous TG–DTA/FT-IR 45
THERM
Group additivity thermodynamic parameters (terms) for Br, Cl, F, CH_3 and OH interactions and CH_3 buttress effects in multi-substituted aromatics 153
Thermodynamics
Studies on densities and viscosities of binary mixtures of alkyl benzoates in *n*-heptane 127
The temperature relations of the thermodynamic quantities of Ca, Sr, Ba, and Pb zirconates 137
Group additivity thermodynamic parameters (terms) for Br, Cl, F, CH_3 and OH interactions and CH_3 buttress effects in multi-substituted aromatics 153
Thin film
A thermodynamic study of gas transport in the growth of antimony telluride thin films 9
TPBS
Thermal volatilisation analysis of γ-irradiated tetraphenylboron sodium 79
Transformation
Thermal transformations of $NH_4M^{II}PO_4 H_2O$ (where M^{II} is Mg, Mn, Co, Cu) 91
TVA
Thermal volatilisation analysis of γ-irradiated tetraphenylboron sodium 79

UNIQUAC
Solubilities of organoboron compounds in organic solvents. Part 1. Solid–liquid equilibria of some pyrazaboles + heptane or +2-propanol 279
UV
IR and UV spectral and differential thermal analyses of symmetry shifts in geminally bis-, tetrakis- and fully substituted phenyl derivatives of cyclotriphosphazene 241

Vapour pressure
The temperature relations of the thermodynamic quantities of Ca, Sr, Ba, and Pb zirconates 137
Viscosity
Studies on densities and viscosities of binary mixtures of alkyl benzoates in *n*-heptane 127

Water
A computational treatment of the gas-phase thermodynamics of the water dimer in flexible potentials 1

Weak electrolyte
Enthalpies of solution of citric acid in water at 298.15 K. The effect of association processes on thermochemical properties of electrolyte solutions 33

XRD
Thermal transformations of $NH_4M^{II}PO_4 \cdot H_2O$ (where M^{II} is Mg, Mn, Co, Cu) 91

Zirconate
The temperature relations of the thermodynamic quantities of Ca, Sr, Ba, and Pb zirconates 137
